Rowan College of South Jersey (“College”) recognizes the value of engaging in grants and sponsored projects, as well as contract programs when they are consistent with the institution’s mission, goals, and strategic plan. The College encourages all members of the staff to consider participating in such programs as they relate to their own areas.

Ideas for grants, sponsored projects, and/or contracts may originate at any level.

To this end, the College has established administrative procedures and an organizational structure to ensure the following: these efforts are coordinated; reports are filed in a timely manner; and grant requirements meet federal, state, and local laws.
